

# Boston Echo Conference

March 26, 2022 | 9:30 am - 2:30 pm

The Westin Waltham - Boston

70 Third Avenue Waltham, MA 02451

**Lanqi Hua, ACS, APCA, RDCS, FASE**  
Technical Director  
Massachusetts General Hospital  
Boston, MA

**Lauren C. Motola, BS, RDCS, FASE**  
Adult & Pediatric Cardiac Sonographer  
Elliot Hospital  
Manchester, NH

**Jason B. Pereira, MS, RCS**  
Lead Echocardiographer, Heart and Vascular Institute  
The Hospital of Central Connecticut  
New Britain, CT

## Agenda

- 9:20 am **Welcome**  
- Matt Wilson
- 9:30 **UEA Clinical Application & Technical Tips**  
- Lanqi Hua, ACS, APCA, RDCS, FASE
- 10:45 **Break**
- 10:55 **Conventional vs. Unconventional Uses of UEA's - A Sonographer's Perspective**  
- Lauren C. Motola, BS, RDCS, FASE
- 12:00 pm **Lunch and Learn Session (Lunch Provided)**  
**Stop the Right Heart Struggles: RV Opacification**  
- Jason B. Pereira, MS, RCS
- 1:30 **Discussion / Review with All Faculty**
- 2:15 **Closing Remarks**  
- Faculty & Matt Wilson
- 2:30 **End of session**

*This program has been submitted for approval of 4.0 hours of SDMS CME Credit Category AE by the Society of Diagnostic Medical Sonographers (SDMS).*

## Accreditation

### Program Description / Statement of Need:

Exercise stress echocardiography can assess significant coronary artery disease in patients with no history of CAD and to assess myocardial ischemia in patients with known CAD. In these patients, often, contrast agents are administered. For other indications such as valve diseases and hypertrophic cardiomyopathy, contrast agents are occasionally needed for the improvement of endocardial definition. For these indications, the instrument, settings, and contrast dosages can be different. Unconventional uses of contrast will be discussed and reviewed in case studies. This course is specifically designed with Sonographers and Cardiologists in mind.

### Target Audience:

The content of this SDMS CME symposium is intended for healthcare professionals including Sonographers, Imaging Nurses, Administrators, Researchers, and Others.

### Accreditation Statements:

This program has been submitted for approval of 4.0 hours of SDMS CME Credit Category AE by the Society of Diagnostic Medical Sonographers (SDMS).

### Faculty and Planner Disclosures:

As an accredited provider of continuing medical education, it is the policy of The Northwest Imaging Forums, Inc. (NWIF) to ensure balance, independence, objectivity, and scientific rigor in all of its live activities. In accordance with this policy, faculty and planners must disclose any financial relationships with commercial interests germane to program content. Additionally, in the event a conflict of interest (COI) does exist, it is the policy of NWIF to ensure that the COI is resolved in order to ensure the integrity of the CME activity. The planner has nothing to disclose.

## Learning Objectives

1. Review cardiac anatomy and explore how Right Ventricular (RV) assessment requires multiple scanning windows.
2. Review Case Studies.
3. Understand the Principles of Contrast Echo.

Proudly Presented by Northwest Imaging Forums, Inc.

Supported with an unrestricted educational grant provided by Bracco Diagnostics Inc.

IMAGING FORUMS, INC.
